

Dear hiring manager,

I am Mauricio Alpízar, Product Designer at Crealogix. I have known Marc Lopez Pujol for a little over two years. I got the opportunity to welcome him to Crealogix and from day one you could tell that he is the type of designer that stands out!

When I started working with Marc, I knew that he would catch up with the project without any problem and that he would bring fresh air to the team. So, it is only natural that during our time together, Marc displayed great talents in many areas, such as user experience, accessibility, design systems, design tools, CSS, communication with developers, great team player, and above all a great human being and a great person.

Marc is a go-getter type of person; he is passionate about what he does, and I think one of the best things about him is that he likes to share his knowledge and is always available to lend a hand and help with anything.

I remember the day we, as a team, decided to make the changes from Sketch to Figma. Marc was one of the most eager to make the change because of his knowledge using Figma. While making the transfer to Figma, Marc made sure to help all of us understand how Figma works and played a key role during the process. Still today, Marc is the person you need to talk to if you need help with Figma!

But apart from the work-related issues, I can personally say that Marc is the type of person you want to be surrounded by. He truly is a person you could talk to and is always there to listen and help if possible.

For these reasons, I recommend Marc for the position. I believe he would be a valuable asset to any organization fortunate enough to have him on their team.

If you have any questions, feel free to contact me.

Sincerely,

Mauricio Alpizar
